

Hey kid, what are atoms?

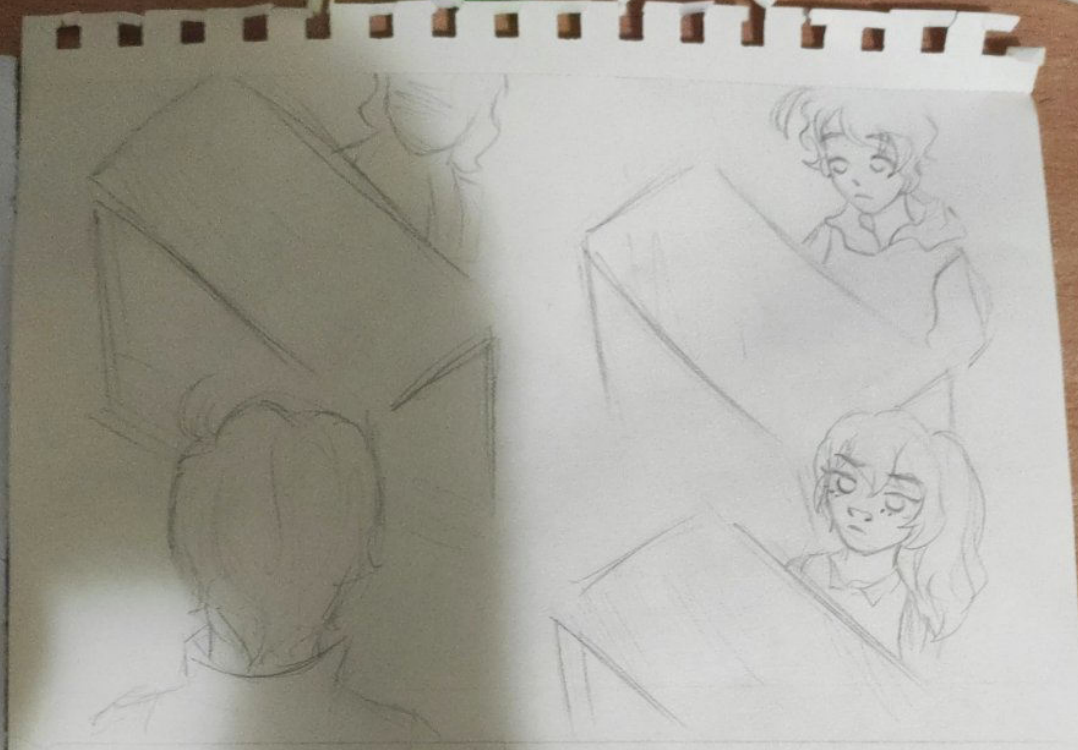

a-atom is the smallest partical of a...uh chemical element.

See, I would've given you an A if it weren't for your ridiculous accent

HANA HANA

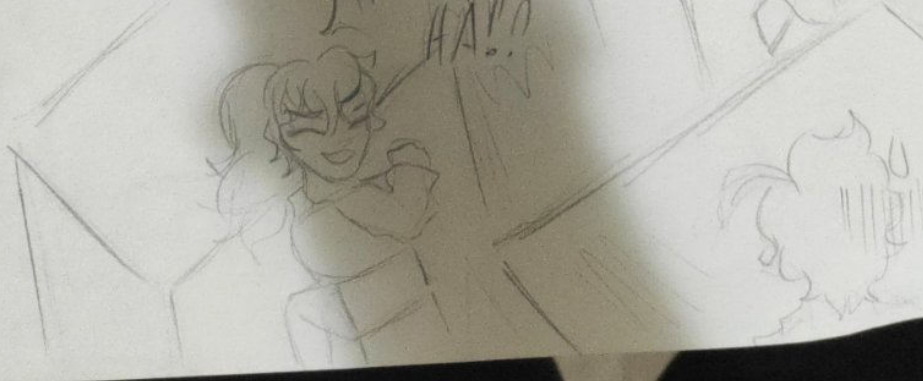

Hey kid, what are atoms?

a-atom is the smallest partical of a...uh chemical element.

See, I would've given you an A if it weren't for your ridiculous accent

Look, I'm sorry!

I didn't  
accept  
your  
help  
earlier...

It's fine, glad you apologized!  
hope we can become friends.
